BRIEF SUMMARY

I am Pooja Vaddadi, a recent B.Tech graduate in Computer Science and Engineering from Manipal University. I have gained strong knowledge in software development, artificial intelligence, machine learning, cloud computing, cloud security, data structures and algorithms, and operating systems. I have also worked on several academic and personal projects where I successfully applied these skills to real-world scenarios

KEY EXPERTISE

- Cloud Security
- basic coding
- DSA
- C
- WEB DEVELOPMENT
- APP DEVELOPMENT
- Basic knowledge of software testing
- data structures
- data algorithms
- Artificial Intelligence
- software development basics
- c programmes
- C Programming
- , MongoDB
- Express.js
- React
- Node.js
- plugins
- kotlin

EDUCATION

Manipal University Jaipur B.Tech. - CSE CGPA: 7.01 / 10	2021 - 2025
Aditya Talent School, Kakinada 12 th STATE BOARD Percentage: 90 / 100	2020
Aditya Talent School, Kakinada 10 th STATE BOARD Percentage: 100 / 100	2018

AWARDS AND SCHOLARSHIPS

- DEANS LIST OF EXCELLENCE awarded during my 1st year

INTERNSHIPS

spark software solutions Academics / Research software engineering intern Key Skills: Javascript HTML Web API CSS Wrote frontend & backend APIs for building a delivery based web application. Additionally, performed unit tests and developed a CI/CD integrated project - Java, Javascript , HTML	04 Apr, 2024 - 06 May, 2024
---	-----------------------------

PROJECTS

poojanotes Mentor: Ashish Dadhich Team Size: 1 Key Skills: kotlin, android studio, java, xml Project Link: https://drive.google.com/file/d/1wW5CWCIIjAwKp02PxtDKdAPR5Pbk8r1h/view?usp=sharing A simple and efficient app to create, organize, and manage your notes. Capture ideas, set reminders, and stay productive with features like folders, search, and synchronization across devices. Perfect for students, professionals, and anyone who loves to stay organized!	10 Sep, 2022 - 15 Dec, 2023
AI TEXT SUMMARIZER APP Team Size: 1 Key Skills: HTML CSS postman api frameworks built this project using POSTMAN SUMMARIZER AI to understand how real-world applications integrate APIs and manage dynamic data.	
Attendance/Face Monitoring System Team Size: 2 Key Skills: ML Database detection Object Detection	

Developed an Attendance Monitoring System utilizing database, and python libraries like OPENCV employing primary and foreign keys to establish table relationships, facilitating comprehensive attendance tracking for both students and faculty in a university setting.

Generative Pre-trained Transformer (GPT) |

Mentor: sparks organizer | Team Size: 2

Key Skills: Python, PyTorch, Transformer Architecture, NLP

Built a GPT model from scratch following the "Attention is All You Need" paper, implementing multi-head self-attention mechanisms and transformer architecture for autoregressive language modeling. Developed the complete transformer pipeline including positional encoding, multi-layer attention blocks, and feedforward networks, achieving coherent text generation capabilities similar to GPT-2/GPT-3. Implemented advanced PyTorch techniques for model training and optimization, demonstrating deep understanding of modern language model architectures that power systems like ChatGPT.

Facial Emotion Detector

Key Skills: Convolutional Neural Networks (CNN), Python, TensorFlow

Developed a facial emotion detection system using CNN and TensorFlow for real-time emotion recognition from facial expressions. Employed Python and TensorFlow to build and train a neural network model, optimized for high accuracy in diverse emotional state recognition. Utilized advanced CNN architectures to extract features from facial data, capturing subtle emotional cues in various conditions.

PUBLICATIONS / RESEARCH / WHITE PAPERS

ARTIFICIAL INTELLIGENCE IN CYBERBULLYING

21 Mar, 2023

Research | Mentor: Ashish Dadhich | No. of Authors: 1

Key Skills: Artificial Intelligence Cyberbullying Information technology Cyber-security abuse moderation society

It provides an overview of the state of the art with respect to the use of AI in addressing various types of online abuse and cyberbullying; current challenges for the field; and it emphasizes the need for greater interdisciplinary collaboration on this topic. The article also summarizes key contributions of the articles selected for the special issue. This survey-based study set out to explore the relationship between personality traits and cyberbullying among university students receiving education through either face-to-face or distance education modes.

ACHIEVEMENTS

- Secured JEE MAINS percentile of 89.88
- Gained reputation in newspaper for cracking 10/10 CGPA in 10th standard

ASSESSMENTS / CERTIFICATIONS

POSTMAN coding infrastructures

Aggregate: 98 / 100

Key Skills: plugins, java, c, python,

project AI Text Summarizer app with Postman Student Programs issued on APR 2024

POSITIONS OF RESPONSIBILITY

E Head of Promotions (Core Commities) IEEE

I am responsible for promoting more than 20 events held by IEEE whether be it technical or semi-tech. With the support of my team, we were able to get 700+ participants in a hackathon held by IEEE. 350+ participants.

PERSONAL INTERESTS / HOBBIES

- cooking, reading, writing, painting
